Advantages over pads:

- rotary brushes outlast floor pads more than 200 to 1, ultimately saving you time and money
- reduces packaging, storage and waste
- lowers labor cost by reducing change out frequency and time
- eliminates pad tearing and the need to re-center pads
- all rotary brushes utilize durable plastic blocks specially constructed to provide long lasting, superior performance
- brushes perform well on all types of surfaces including new or old floors with uneven surfaces
- solution feed design allows cleaning solution to flow through rotary brush block for thorough cleaning
